## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 17 seems to be claiming a Casino or a Gaming house. Further applicant appears to be claiming a Casino or Gaming house that operates a game in accordance to a cancelled claim (claim 8).

Applicant is required to cancel claim 17 in response to this office action.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3711

1. Claims 1-4, 9-11, 15-16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Thompson (728).

Thompson discloses a Poker Game Using A Roulette Wheel.

Thompson's game clearly teaches the limitations of the aforementioned claims.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

- 44 5-6
2. Claims ~~6-7~~ & 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Thompson (728).

Thompson discloses a Poker Game Using A Roulette Wheel.

44 5-6  
Regarding claims ~~6-7~~

Thompson fails to teach 49 or 50 regions, he teaches 53 regions instead. It would have been an obvious matter of design choice to modify Thompson to any desired size, since such a modification would have involved a mere change in the size of a component. A change in size is generally recognized as being within the level of ordinary skill in the art.

Regarding claim 17

Examiner takes official notice that Casinos and Gaming houses are well known in the art.

3. Claims 12-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Thompson (728) as applied to claim 10 above, and further in view of Busch et al. (659).

Regarding claims 12-14

Thompson fails to explicitly teach features of a jackpot wager. Busch discloses a Roulette Table Having Progressive Jackpots. His method teaches jackpot wagers and resolution based on a predetermined number of successive spins (see abstract) It would have been obvious to modify Thompson to include jackpot features to add excitement to game play.

### **Conclusion**
